shreetej028@gmail.com | 7757826738 | Pune, Maharashtra, India | LinkedIn

PROFESSIONAL SUMMARY

Cyber Forensics & Information Security student with hands-on experience in Android development, full-stack web development, database management, and secure application development. Experienced with Java, Python, Android Studio, XML, Firebase, SQLite, MySQL, XAMPP, REST APIs, React.js, JavaScript, HTML, CSS, and Tailwind CSS. Developed an Android college attendance system with QR-code attendance, biometric authentication, role-based access, and separate teacher and student applications. Also developed a responsive personal portfolio and am currently building an AI chatbot. Strong foundation in DBMS, computer networking, information security, and cybersecurity.

SOFT SKILLS

Problem Solving | Analytical Thinking | Communication | Team Collaboration | Adaptability | Quick Learning | Attention to Detail | Technical Research

EXPERIENCE

Mountreach Solution Pvt. Ltd. — Full Stack Android Development Intern

June 2025 – August 2025 | Internship

- Developed Android applications using Java, Android Studio, XML, Firebase, MySQL, and REST APIs.
- Implemented application functionality involving authentication, database operations, and CRUD operations.
- Worked with Firebase for application authentication and real-time data management.
- Used MySQL and XAMPP for backend database management and application data handling.
- Worked with REST APIs for application-backend communication.
- Used Git and GitHub for source-code management and version control.
- Designed Android user interfaces using XML and Android development tools.

PROJECTS

Android College Attendance Management System

Technologies: Java, Android Studio, XML, Firebase, SQLite, MySQL, XAMPP, REST APIs, QR Code, Biometric Authentication •

Developed an Android-based college attendance management system with separate applications for teachers and students.

- Implemented QR-code-based attendance recording for efficient attendance management.
- Integrated biometric authentication for secure user verification.
- Implemented role-based login and access control for teacher and student applications.
- Used SQLite for local data storage and MySQL/XAMPP for backend database management.
- Integrated Firebase and REST APIs for authentication, data handling, and application-backend communication.

Personal Portfolio Website

Technologies: React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Framer Motion

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, experience, education, and certifications.
- Built the frontend using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS.
- Implemented interactive animations and transitions using Framer Motion.
- Developed a professional contact form for direct communication.
- Integrated certification and project sections with responsive, modern UI components.

AI Chatbot Application — In Development

Status: In Development

- Currently developing an AI-powered chatbot application focused on interactive conversational experiences.
- Working on chatbot functionality, user interaction, and application architecture.

EDUCATION

Ajeenkya DY Patil University, Pune

B.Tech — Cyber Forensics & Information Security | 2026 – Present | Direct Second Year (DSY)

Focus areas include cybersecurity, computer networks, DBMS, information security, digital forensics, and secure application development.

Takshashila Polytechnic, Amravati

Diploma — Computer Engineering | 2023 – 2026 | 83.47%

Foundation in programming, databases, computer systems, software development, and computer networking.

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++, JavaScript

Android Development: Android Studio, Java, XML, Firebase, SQLite, REST APIs

Web Development: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Framer Motion

Databases & Backend: MySQL, SQLite, Firebase Realtime Database, XAMPP, DBMS, REST APIs

Cybersecurity & Networking: Cyber Forensics, Information Security, Network Security, Computer Networking, Cisco Packet Tracer

Development Tools: Git, GitHub, VS Code, Android Studio, XAMPP

CERTIFICATIONS

- Microsoft Applied Skills: Get started with Azure management tasks
- Microsoft Applied Skills: Get started with classes, properties, and methods in C#
- Microsoft Applied Skills: Generate reports with AI research agents
- Microsoft Applied Skills: Get started developing agents in Microsoft Foundry
- Career Essentials in Generative AI — Microsoft & LinkedIn
- Data Analytics Job Simulation — Deloitte
- Professional Communication
- Industrial Training — Full Stack Android Development — Mountreach Solution Pvt. Ltd.
